

## SIRE 2.0 – HUMAN FACTOR PROCESS

**Course aim and objectives:** The course provides participants with knowledge for understanding the revised criteria of tanker ship vetting inspection based on the new SIRE 2.0 criteria of the vetting process with particular focus on human factor aspects. The new SIRE 2.0 process is explained as well as the SIRE 2.0 three stage approach on *a) human factor b) audit and c) inspection*. The course also explains the strategies for managing the preparation of crew and vessel to pass a successful onboard SIRE 2.0 vetting inspection and avoid unnecessary observations regarding human factor which may eventually have an impact on the vessel's quality of services and affect the vessel's commercial trading prospects

### Course main elements:

- Background and introduction to tanker vetting inspections
- Overview of SIRE 2.0 Vetting Inspection human factor criteria
- Objectives of the revised SIRE 2.0 inspection program
- Preparation and management of the on-board inspection
- Crew Management
- Behavioral Competency On-Board Assessments
- Feedback, Reporting and Performance Improvement Plans
- Workshops and practical exercises

**Course participation:** The course is open to shipping company managers, superintendents, internal audit team, masters, and senior shipboard officers involved in the on-board vetting inspection process

**Course duration: 2 days** This training is provided with real time instruction in two pre-scheduled interactive learning sessions
